

Thinking Frame: Materials

1. Choose a material. What is it?

wood

plastic

rock

brick

water

fabric

paper

metal

2. What are its properties?

I would choose

because

Material	Properties	Waterproof ? Yes / No

hard

soft

shiny

dull

rough

smooth

flexible

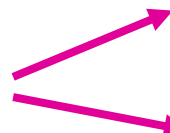

rigid

4. Which material would you use to make a shelter? Why?

Put a drop of water on the material?
What happens?

waterproof

not waterproof

3. Test if the material is waterproof
